Summary

Computer Science undergraduate (CGPA: 8.80) at VIT Bhopal University with strong foundations in Full Stack Development and AI-based applications. Experienced in building scalable web applications using MERN stack and Django, along with deploying ML-powered solutions. Proven leadership in managing large-scale university events and delivering production-ready projects. Seeking Software Development / Full Stack / AI internship opportunities.

Education

VIT Bhopal University	Aug 2023 – May 2027
B.Tech in Computer Science and Engineering (Core)	CGPA: 8.80

Technical Skills

Programming: Python, C++, Java, SQL, JavaScript (ES6+), TypeScript
Frontend: React.js, Next.js, HTML5, CSS3
Backend: Node.js, Express.js, Django, Flask
Databases: MongoDB, MySQL, SQLite
AI/ML: TensorFlow, OpenCV, Deep Learning, LLM APIs (Gemini)
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Computer Networks
Tools: Git, Streamlit, Excel, Google Sheets, Microsoft Office

Projects

AI Image Captioning App	June 2025
<i>Python, Streamlit, Gemini Vision Pro</i>	

- Built AI-powered web app generating contextual captions for images using Google Gemini Vision Pro.
- Designed multi-prompt architecture for social media, accessibility, and e-commerce use cases.
- Implemented secure API integration and deployment-ready configuration.

Face Recognition Attendance System	Dec 2025
<i>Python, OpenCV, Deep Learning, SQL</i>	

- Developed biometric attendance system with real-time face detection and recognition.
- Integrated anti-spoofing and lighting optimization techniques.
- Designed structured database with CSV export and cloud integration.

Plant Disease Detection System	April 2025
<i>Python, TensorFlow, Streamlit</i>	

- Built CNN model achieving 92% accuracy in plant disease classification.
- Created interactive UI for diagnosis and treatment suggestions.
- Optimized preprocessing pipeline for mobile deployment.

Automated Payroll Management System	June 2024
<i>Python, Flask, SQLite</i>	

- Developed full-stack payroll system with attendance tracking and salary computation.
- Designed relational schema with role-based authentication.
- Implemented secure admin dashboard and reporting features.

Leadership & Experience

Event Coordinator – Gujarati Club & Ramanujan Mathematica and SAP Club	Sept 2024 – Present
---	---------------------

- Led 50+ member team organizing university-level events (100+ participants).
- Managed budgets, logistics, and cross-team coordination.
- Increased participation by 40% through strategic digital campaigns.
- Developed and maintained 2 official event websites.

Certifications

- Microsoft Certified: Azure Data Fundamentals
- Google Cloud Generative AI Certification
- IBM – Machine Learning with Python
- NPTEL – Introduction to Machine Learning
- AWS – Getting Started with Security
